

Coyote Logistics Enhances Shipment Visibility Using the Descartes MacroPoint Solution

Posted Nov 16, 2017

WATERLOO, Ontario, November 16, 2017 (GLOBE NEWSWIRE) -- Descartes Systems Group (Nasdaq:DSGX) (TSX:DSG), the global leader in uniting logistics-intensive businesses in commerce, announced that Chicago-based Coyote Logistics, a UPS Company, has deployed the Descartes MacroPoint™ freight visibility solution to enhance shipment visibility. Coyote provides truckload, less-than-truckload, and intermodal brokerage services and transportation management services to more than 14,000 shippers, from Fortune 100 companies to small businesses worldwide.

"Coyote is committed to providing a seamless experience to both shippers and carriers. Real-time shipment visibility and connectivity is a critical component of that experience," said Jim Sharman, Coyote's Chief Operating Officer. "The Descartes MacroPoint solution is a simple way for carriers to provide accurate, reliable location data, and it doesn't cost them anything when moving Coyote loads. That data drives greater operational efficiencies and brings increased visibility to shippers."

The cloud-based Descartes MacroPoint freight tracking solution gives carriers, brokers, shippers and logistics service providers, such as Coyote, real-time visibility into load status. Organizations can more closely monitor and evaluate the real-time movement of all their freight in one portal, and take proactive, corrective action before any potential supply chain disruptions occur. Using this robust, automated solution, companies of all sizes can eliminate the need for time-consuming and ineffective check calls with carriers to ascertain load location details, streamline transportation operations, and improve communication about in-transit freight across the supply chain.

"We're pleased that Coyote is using our solution to empower its sizable customer base with real-time, accurate freight location information," said Dan Cicerchi, Vice-President Descartes MacroPoint Solutions at Descartes.

Cautionary Statement Regarding Forward-Looking Statements

This release contains forward-looking information within the meaning of applicable securities laws ("forward-looking statements") that relate to Descartes' solution offering and potential benefits derived therefrom; and other matters. Such forward-looking statements involve known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, performance or achievements to differ materially from the anticipated results, performance or achievements or developments expressed or implied by such forward-looking statements. Such factors include, but are not limited to, the factors and assumptions discussed in the section entitled, "Certain Factors That May Affect Future Results" in documents filed with the Securities and Exchange Commission, the Ontario Securities Commission and other securities commissions across Canada including Descartes most recently filed management's discussion and analysis. If any such risks actually occur, they could materially adversely affect our business, financial condition or results of operations. In that case, the trading price of our common shares could decline, perhaps materially. Readers are cautioned not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. Forward-looking statements are provided for the purposes of providing information about management's current expectations and plans relating to the future. Readers are cautioned that such information may not be appropriate for other purposes. We do not undertake or accept any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements to reflect any change in our expectations or any change in events, conditions or circumstances on which any such statement is based, except as required by law.
