

# Nolan Transportation Group Increases Shipment Visibility Across North America with the Descartes MacroPoint™ Solution

Posted Jun 17, 2019

WATERLOO, Ontario, June 17, 2019 (GLOBE NEWSWIRE) -- Descartes Systems Group (Nasdaq:DSGX) (TSX:DSG), the global leader in uniting logistics-intensive businesses in commerce, announced that Atlanta-based Nolan Transportation Group (NTG), a leading third-party logistics company, has deployed the Descartes MacroPoint™ freight visibility solution to enhance shipment visibility across its rapidly growing North American distribution network.

"Descartes MacroPoint is a vital piece of both our carrier and customer operations at NTG. Our customers can opt to get real-time visibility on every shipment we move. The drivers for our carriers can provide location updates with minimal interactions while in-transit, leaving us with happier carriers who can focus on driving safely," said Perry Falk, Senior Vice President, Carrier Operations at NTG.

The cloud-based Descartes MacroPoint real-time freight tracking solution gives carriers, brokers, shippers and logistics service providers, like NTG, real-time visibility into the location and status of every load. Using the Descartes solution integrated with its proprietary transportation management system (TMS), NTG is improving the efficiency of transportation operations and communication of in-transit freight status with customers and being more proactive in managing potential supply chain disruptions with intelligent, actionable real-time visibility data.

"We're pleased that our solution is supporting NTG's rapid growth and helping to enhance service by delivering improved customer shipment visibility and stronger carrier relationships," said Brian Hodgson, SVP Industry Strategy at Descartes. "With logistics companies facing greater customer expectations for shipment visibility, having the right technology partner is essential for seamless and reliable tracking services for our customers."

### **Cautionary Statement Regarding Forward-Looking Statements**

This release contains forward-looking information within the meaning of applicable securities laws ("forward-looking statements") that relate to Descartes' solution offering and potential benefits derived therefrom; and other matters. Such forward-looking statements involve known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, performance or achievements to differ materially from the anticipated results, performance or achievements or developments expressed or implied by such forward-looking statements. Such factors include, but are not limited to, the factors and assumptions discussed in the section entitled, "Certain Factors That May Affect Future Results" in documents filed with the Securities and Exchange Commission, the Ontario Securities Commission and other securities commissions across Canada including Descartes most recently filed management's discussion and analysis. If any such risks actually occur, they could materially adversely affect our business, financial condition or results of operations. In that case, the trading price of our common shares could decline, perhaps materially. Readers are cautioned not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. Forward-looking statements are provided for the purposes of providing information about management's current expectations and plans relating to the future. Readers are cautioned that such information may not be appropriate for other purposes. We do not undertake or accept any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements to reflect any change in our expectations or any change in events, conditions or circumstances on which any such statement is based, except as required by law.
