DESCARTES™

Descartes OzLink™ for NetSuite Mobile Enterprise

Wireless Productivity for the Warehouse

NetSuite provides innovative and growth-driven companies with a backbone cloud-based Enterprise Resource Planning (ERP) system that supports the agility, visibility and control they need. As companies expand their omni-channel and transform their businesses in wholesale distribution, manufacturing, retail and e-commerce, the warehouse and fulfillment operation becomes more complex. Streamlining picking, receiving, inventory control while ensuring real-time visibility and control in NetSuite is critical.

Descartes OzLink™ for NetSuite Mobile Enterprise is a proven solution that enables companies to automate NetSuite warehouse operations with wireless barcode scanning, minimize errors, eliminate duplicate data entry, reduce paper-based processes and benefit from real-time visibility to operations.

Descartes OzLink™ for NetSuite Mobile Enterprise also includes options to:

Automate order picking

- Enable single or multiple order picking
- Leverage directed picking to improve efficiency
- Verify that the correct items are picked at the shelf
- Use advanced picking modules such as tote-based picking and order optimization

Increase receiving & put-away productivity

- Quickly and accurately verify purchase order receipts on the dock
- Leverage inbound Advanced Shipping Notices (ASNs) for improved visibility and streamlined receiving
- Receive against Return Merchandise Authorization (RMAs) and route for resale or disposal
- Print item labels as items are scanned and received
- Generate serial and lot numbers at receipt to maximize traceability

Improve inventory control

- Quickly perform cycle counts to validate physical inventory
- Print item barcode labels with a wireless printer to increase accuracy
- Automate replenishment and allocate inventory more efficiently
- Create pallet license plates to group and manage item moves

Streamline manufacturing

- Pick components for assemblies and work orders
- Capture serial and lot numbers for components and assemblies
- Easily complete work order builds

Descartes OzLink for NetSuite Mobile Enterprise leverages wireless barcode scanning to help business automate warehouse processes and realize a number of added benefits.

DESCARTES™ OzLink for NetSuite

Extending NetSuite with a Range of Flexible Functions & Options

Descartes OzLink™ extends your investment in NetSuite by sharing seamless, real-time information with NetSuite. The solution also features a wide range of optional flexible extensions to adapt to operational requirements.

By further expanding the solution with optional services such as fleet management for optimized route planning; integrated mobility for planning, dispatch and delivery processes; and advanced telematics to improve driver productivity and better understand vehicle performance, businesses can also achieve added operational efficiency, reduce costs, enhance customer service and derive a potential competitive advantage.

In addition to Descartes OzLink™ for NetSuite Mobile Enterprise, further solutions include options for:

E-commerce - Automate fulfillment processes for online orders by integrating NetSuite with e-commerce applications. Our solutions help e-commerce-driven companies:

- Integrate orders from online marketplaces and applications such as eBay, Amazon, Magento, Shopify, ChannnelAdvisor and more into NetSuite

- Provide added customer visibility into order fulfillment status with tracking capabilities

- Create channel- and marketplace-specific branded pack slips and compliant labels

- Synchronize item master data between NetSuite and e-commerce applications

Shipping - Among the most widely-used and advanced shipping solutions available, Descartes OzLink for NetSuite quickly processes shipments with all of the necessary carrier services by sharing NetSuite information with leading applications including UPS WorldShip, Endicia, OnTrac, FedEx Ship Manager and others. With our solutions, businesses can:

- Streamline both small package and freight shipments with one solution

- Get real-time updates for costs, tracking numbers and shipment status

- Seamlessly create Advanced Shipping Notices (ASNs) and print retailer labels

- Rate shop across small package and freight carriers
