DESCARTES™

Descartes OzLink™ for NetSuite Mobile Pro

Optimize NetSuite Warehouse Operations with a Smartphone

NetSuite provides innovative and growth-driven companies with a backbone cloud-based Enterprise Resource Planning (ERP) system that supports the agility, visibility and control they need. As companies expand their omni-channel and transform their businesses in wholesale distribution, manufacturing, retail and e-commerce, the warehouse and fulfillment operation becomes more complex. Streamlining picking, receiving, inventory control while ensuring real-time visibility and control in NetSuite is critical.

Descartes OzLink™ for NetSuite Mobile Pro provides seamless barcode scanning automation for warehouse and inventory management; purchase order receiving, transfer order receiving, inventory put-away, inventory move, sales order picking, transfer order picking and more. With our advanced technology in place, companies can leverage the flexibility and convenience of smartphones to minimize errors, decrease duplicate data entry, reduce paper-based processes and more.

Descartes OzLink™ for NetSuite Mobile Pro also includes options to:

Automate order picking
- Enable single or multiple order picking
- Leverage directed picking to improve efficiency
- Verify that the correct items are picked at the shelf
- Increase visibility and control by capturing lot & serial numbers
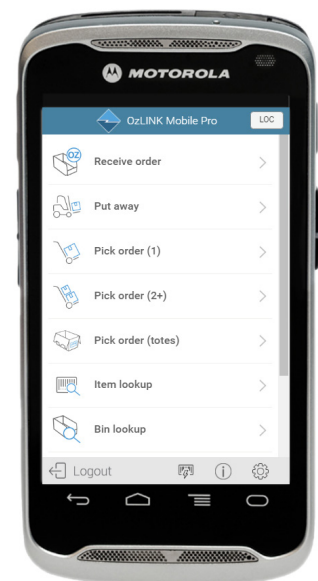

Increase receiving & put-away productivity
- Quickly and accurately verify purchase order receipts on the dock
- Receive against Return Merchandise Authorizations (RMAs) and route for resale or disposal
- Generate serial and lot numbers at receipt to maximize traceability
- Leverage guided walking paths to streamline picking, put away and inventory moves

Inventory control
- Perform bin counts to validate physical inventory
- Print item barcode labels with a wireless printer to increase accuracy
- Easily move existing items between bins
- Perform item look-up with product images to minimize errors

Print directly from a smartphone including the ability to print:
- Item ID bar-coded labels: Thermal printer
- Shipping labels: Thermal or laser printer
- Item fulfillment barcoded labels: Thermal printer
- Packing lists: Laser printer

Descartes OzLink for NetSuite Mobile Pro leverages smartphones to automate warehouse processes and help businesses realize a number of added benefits.

DESCARTES™ OzLink for NetSuite

Extending NetSuite with a Range of Flexible Functions & Options

Descartes OzLink™ extends your investment in NetSuite by sharing seamless, real-time information with NetSuite. The solution also features a wide range of optional flexible extensions to adapt to operational requirements.

By further expanding the solution with optional services such as fleet management for optimized route planning; integrated mobility for planning, dispatch and delivery processes; and advanced telematics to improve driver productivity and better understand vehicle performance, businesses can also achieve added operational efficiency, reduce costs, enhance customer service and derive a potential competitive advantage.

In addition to Descartes OzLink™ for NetSuite Mobile Pro, further solutions include options for:

E-commerce - Automate fulfillment processes for online orders by integrating NetSuite with e-commerce applications. Our solutions help e-commerce-driven companies:

- Integrate orders from online marketplaces and applications such as eBay, Amazon, Magento, Shopify, ChannnelAdvisor and more into NetSuite

- Provide added customer visibility into order fulfillment status with tracking capabilities

- Create channel- and marketplace-specific branded pack slips and compliant labels

- Synchronize item master data between NetSuite and e-commerce applications

Shipping - Among the most widely-used and advanced shipping solutions available, Descartes OzLink for NetSuite quickly processes shipments with all of the necessary carrier services by sharing NetSuite information with leading applications including UPS WorldShip, Endicia, OnTrac, FedEx Ship Manager and others. With our solutions, businesses can:

- Streamline both small package and freight shipments with one solution

- Get real-time updates for costs, tracking numbers and shipment status

- Seamlessly create Advanced Shipping Notices (ASNs) and print retailer labels

- Rate shop across small package and freight carriers
