

## Product Information

# Descartes ShipRush™

### Integrate with a Broad Range of Ecommerce Systems & Platforms, Shop Rates, Ship & Track

From ecommerce and carrier integration, to automated rules and more, Descartes ShipRush™ helps small-to-medium ecommerce businesses (SMBs) and omnichannel retailers ship smarter. With Descartes ShipRush in place, it's easy to compare rates, bulk print labels, automatically email customers with branded communications, quickly locate orders and track shipments—all from an intuitive, centralized dashboard.

*Automatically import orders from 75+ ecommerce carts, marketplaces, Customer Relationship Management (CRM) and accounting systems.*

Please refer to <https://shiprush.com/ecommerce> for the most up-to-date list of ecommerce integrations.

## Potential Benefits

Descartes ShipRush can help to:

- Leverage discount postage to minimize costs
- Boost operational productivity with automated business rules
- Improve customer service via automated emails with shipping and tracking information
- Leverage multiple currency options to address the needs of local and global markets
- Eliminate the need to copy data to and from ecommerce and carrier platforms
- Tap the profit potential of drop shipments with the ability to print remotely to suppliers' locations

## Features

The solution features the ability to:

- Automatically import orders from a range of carts and systems including: eBay, Etsy, Amazon, Shopify, Salesforce.com, and more
- Print shipping labels for FedEx UPS, USPS, and other major U.S. and global carriers
- Switch between parcel, freight and LTL
- Compare carrier rates and delivery times side-by-side in real-time
- Rapidly onboard with no IT bandwidth required for deployment
- Take advantage of special instructions capabilities such as returns, adult signer, and delivery windows

---

We are pleased to announce that ShipRush is now part of Descartes. ShipRush has joined the world's premier global logistics community, the Global Logistics Network, that facilitates improved performance and productivity of logistics operations around the world.
