DESCARTES™

Ekspressfortolling

Summary

- Ability to pre-lodge Import Declarations and submit Manifest data to Norwegian Customs to allow advance Risk Assessment and quick border crossing.

Roadmap: Planned in GCT Release 20.3 March 2020

- Separate module under customs in GCT
  - New Customs Module and Summary Screen of Manifests
  - Create a new manifest via drag n drop from Import , Export and NCTS declarations
  - Update a manifest by add/remove declarations to a manifest that already exists
  - Full trailer loads only. No consolidated loads

DESCARTES™

Ekspressfortolling

Workflow

- Drag N Drop one or more Imports, Transit or Exports to create a new Manifest or update an existing Manifest (add/delete declarations)

- Manually Create a Manifest and capture data, including External Documents

- Send Data to Customs

- Update manifest

- Get Manifest data from Customs to obtain Release / Departed status

  - Statuses
    - Rejected
    - Accepted
    - Released
    - Departed
