

Product Information

Descartes ACE 4-Trucks

Do You Need to “ACE” New U.S. Government Customs Requirements for the Canadian & Mexican Borders?

Don't let shipments get potentially turned away or delayed at the border. Flagship Customs Services (FCS), the largest electronic customs filer in the United States and ViaSafe, the largest electronic customs filer in Canada, are now part of the Descartes Global Logistics Network™ (GLN) creating one of the world's largest customs filing organizations. The GLN is a robust messaging network with thousands of shippers, including 90+ air, 30+ ocean, 1,400+ truck carriers and connectivity to many worldwide regulatory agencies, so companies are better equipped to meet regulatory initiatives while remaining compliant and competitive.

Enhanced Cross-Border Services

For any basic ACE Service customer, Descartes offers a complete value-added, cross-border documentation service, ViaTrade, to help improve the efficiency and traceability of the customs and border clearance processes.

Basic Automated Commercial Environment (ACE) Services

Descartes' electronic manifest system helps small-to-large companies comply with U.S. Customs and Border Protection's (CBP) ACE electronic filing requirements through the following services:

ACE 4-Trucks

- Manage filings through universal, easy-to navigate Web interface and fully automated Internet-based EDI interface
- Help/Lookup/Reporting features help ensure
- Use tools to immediately alert users to border crossing problems or errors
- Integrated Denied Parties Screening compliance
- Delivered on the Import2000 platform to allow multimodal, multi-country customs compliance

ACE Preparer

- Fax/Email information to Descartes for data entry and submission to ACE
- Receive e-Alert ACE status messages via email
- View Waybills and Trip ACE status messages through the ACE-4-Trucks interface

ACE Connect

- Ideal for large organizations with existing Infrastructure and ACE software
- Provides a secure connection to US CBP via the Descartes GLN

ViaTrade

- Connects carriers to customs brokers and US CBP, providing visibility and control over the location of customs filing documents
- Electronically route bills of lading and commercial invoices to customs brokers and view associated shipments and documents
- Review the status of submitted reports including alerts for shipment documents that have not been accepted by customs brokers
- Full Fax & Forget service also available for small to midsize carriers
