

Product Information

Descartes OzLink™ for QuickBooks

Extend QuickBooks with Added Functionality

From small businesses seeking to implement barcoding, multi-channel high-volume retailers or wholesale distributors, the Descartes OzLink suite of solutions can help apply industry best practices and streamline operations.

Innovative and high growth companies such as Omega Sea, Julian Bakery, Art of Tea, and Robotzone use Descartes OzLink™ for QuickBooks to achieve a higher level of productivity and efficiency and to further increase the functionality offered by QuickBooks.

Our advanced solution further expands QuickBooks by enabling:

Advanced Shipping with Integrated Carrier Applications Featuring QuickBooks Fulfillment

Leverage the warehouse staff's knowledge of familiar applications and ensure more complete access to carrier services. Descartes OzLink for Quickbooks Shipping supports UPS WorldShip, FedEx ShipManager, USPS Endicia, DHL EasyShip and Global Mail, Purolator ESS and Less-than-Truckload (LTL) Bills of Lading (BOLs). Our solution updates QuickBooks in real-time with carrier tracking numbers and shipping costs to provide better customer service and access to data. Descartes OzLink can:

- Automate business rules to select the best carrier and service
- Increase shipping accuracy with pack validation and printing of branded pack slips and box labels
- Streamline picking and shipping by printing pack slips and shipping labels in batch

Advanced Shipping Notice (ASN) Automation

Automatically generate ASNs and related Serial Shipping Container Code (SSCC) labels in the warehouse during the shipping process. Descartes OzLink for QuickBooks captures all carton-level details, including the contents of each package, directly into a QuickBooks sales order, sales receipt or invoice.

E-commerce Integration

Descartes OzLink for QuickBooks integrates with e-commerce applications to ensure that new orders are automatically entered into QuickBooks and inventory levels are fed from QuickBooks back into e-commerce applications. With Descartes OzLink connecting external e-commerce applications, QuickBooks is always up-to-date and serves as the central system to manage all of customers and records. Descartes OzLink can:

- Cut time and errors during order entry
 - Add additional checks such as address validation and denied party screening to eliminate penalties and costs
 - Ensure that e-commerce channels have the most up to date order status and tracking information
-

More About Descartes OzLink for QuickBooks

Descartes OzLink™ extends your investment in QuickBooks with seamless, real-time integration. The solution also features a wide range of optional flexible extensions to adapt to operational requirements.

By further expanding the solution with services such as fleet management for optimized route planning; integrated mobility for planning, dispatch and delivery processes; and advanced telematics to improve driver productivity and better understand vehicle performance, businesses can achieve added operational efficiency, reduce costs, enhance customer service and derive a potential competitive advantage.
