Safe Harbor Statement

Certain statements to be made today and in this presentation, and that may be made in response to questions, constitute forward-looking information for the purposes of applicable securities laws (“forward-looking statements”), including, but not limited to: statements using the words “believe,” “plan,” “expect,” “anticipate,” “intend,” “continue,” “may,” “will,” “should” or the negative of such terms and similar expressions; or statements in relation to any of the following topics: our assessment of the current and future potential impact of the COVID-19 pandemic on our business, results of operations and financial condition; addressing economic uncertainty; investment in areas of our business with high strategic value and growth potential; our future operating performance; software-as-a-service business model; strategy, market opportunity and vision; our position and opportunity to lead our industry with our business model; solution functionality and benefits derived therefrom; network penetration; ability to complete acquisitions and contribution of completed acquisitions to our operations; anticipated churn in revenues; competition; and forecasted environmental benefits of our products and solutions.

The material assumptions made in making these forward-looking statements include, but are not limited to, the following: global shipment volumes continuing to increase at levels consistent with those experienced historically; the current conflict in Ukraine and the COVID-19 pandemic not having a material impact on shipment volumes or on the demand for the products and services of Descartes by its customers and the ability of those customers to continue to pay for those products and services; countries continuing to implement and enforce existing and additional customs and security regulations relating to the provision of electronic information for imports and exports; countries continuing to implement and enforce existing and additional trade restrictions and sanctioned party lists with respect to doing business with certain countries, organizations, entities and individuals; our continued operation of a secure and reliable business network; the stability of general economic and market conditions, currency exchange rates, and interest rates; equity and debt markets continuing to provide us with access to capital; our continued ability to identify and source attractive and executable business combination opportunities; our ability to develop solutions that keep pace with the continuing changes in technology, and our continued compliance with third party intellectual property rights. While management believes these assumptions to be reasonable under the circumstances, they may prove to be inaccurate. In addition, the forecasted environmental benefits of our products and services are based on projections, reductions and savings derived from various third party modeling tools identified on our website at www.descartes.com and which rely on various assumptions in their calculations.

These forward-looking statements are also subject to risks, uncertainties and assumptions that may cause future results to differ materially from those expected. Factors that may cause such differences include, but are not limited to: our ability to identify and successfully integrate acquired businesses; the impact of network failures, information security breaches or other cyber-security threats, disruptions in the movement of freight and a decline in shipment volumes including as a result of contagious illness outbreaks such as the current COVID-19 pandemic, a deterioration of general economic conditions or instability in the financial markets accompanied by a decrease in spending by our customers; departures of key customers; the ability to attract and retain key personnel and transition when key personnel depart; variances in our revenues from quarter to quarter; fluctuations in international currency exchange rates; exposure to greater than anticipated tax liabilities; changes in electronic customs filing regulations and other factors discussed under the headings “Risk Factors” or “Certain Factors That May Affect Future Results” in documents filed with applicable securities regulatory authorities under our profile on SEDAR at www.sedar.com and on EDGAR at www.sec.gov, including the documents incorporated by reference into such documents. If any of such risks actually occur, they could materially adversely affect our business, financial condition or results of operations. In that case, the trading price of our common shares could decline, perhaps materially.

We provide forward-looking statements solely for the purpose of providing information about management's current expectations and plans relating to the future. You are cautioned that such information may not be appropriate for other purposes. In particular, we have not adjusted or revised any forward-looking statements in this presentation to account for the potential disruption to our business from the COVID-19 pandemic, the impact from which is not immediately known or quantifiable. Except as required by law, we do not undertake or accept any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements to reflect any change in our expectations or any change in events, conditions, assumptions or circumstances on which any such statement is based.

Customer Case Studies

Leverages Descartes' Advanced Home Delivery solution for:

- Real-time delivery appointment scheduling
- Route optimization and execution
- Mobile resource management solutions

Leverages many Descartes solutions across multiple DHL operating groups:

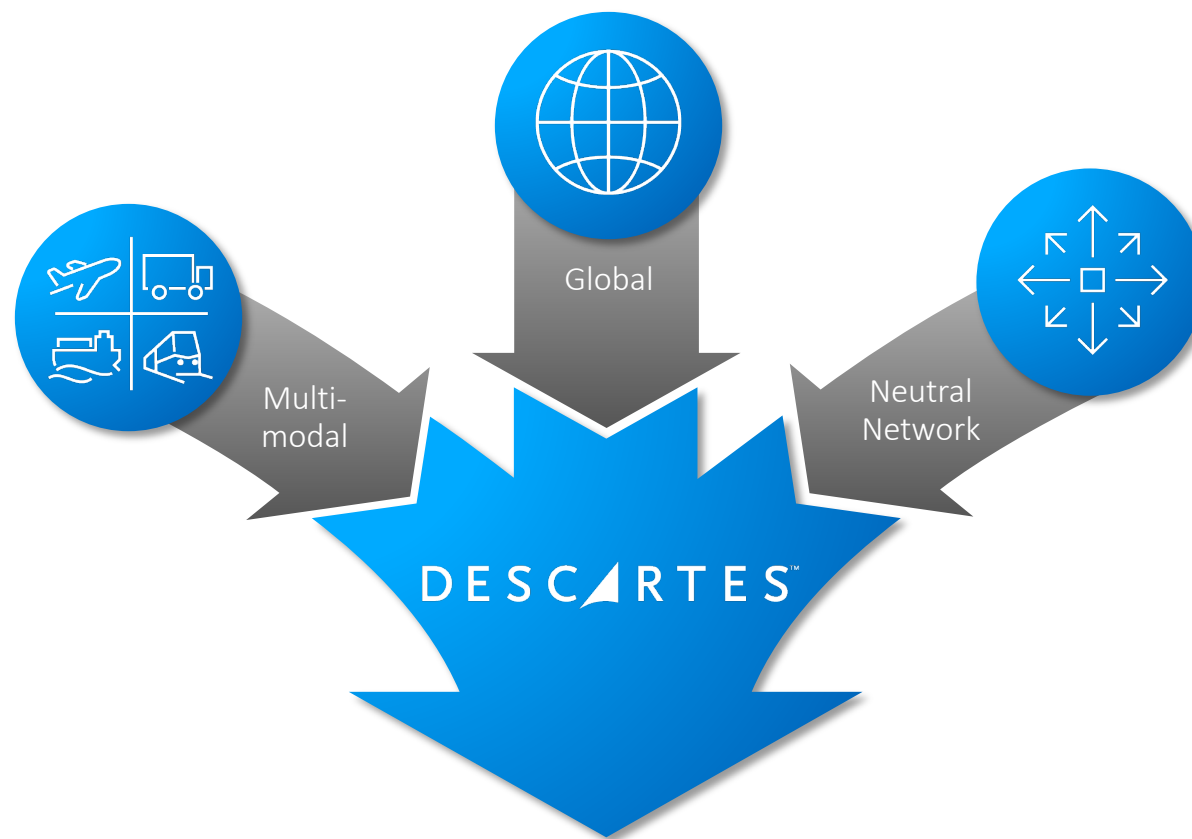

- Global Forwarding
- DHL Express (Parcels)
- Logistics and supply chain management

Descartes' solutions help Delta Airlines meet a growing number of logistic challenges across the globe:

- Numerous country-specific customs and security filings
- Provide cargo tracking and ULD global visibility solutions
- Operate air messaging network for Delta and its logistics partners

Why We Win

Pure play logistics technology provider with **compelling combination** of network, applications and data content

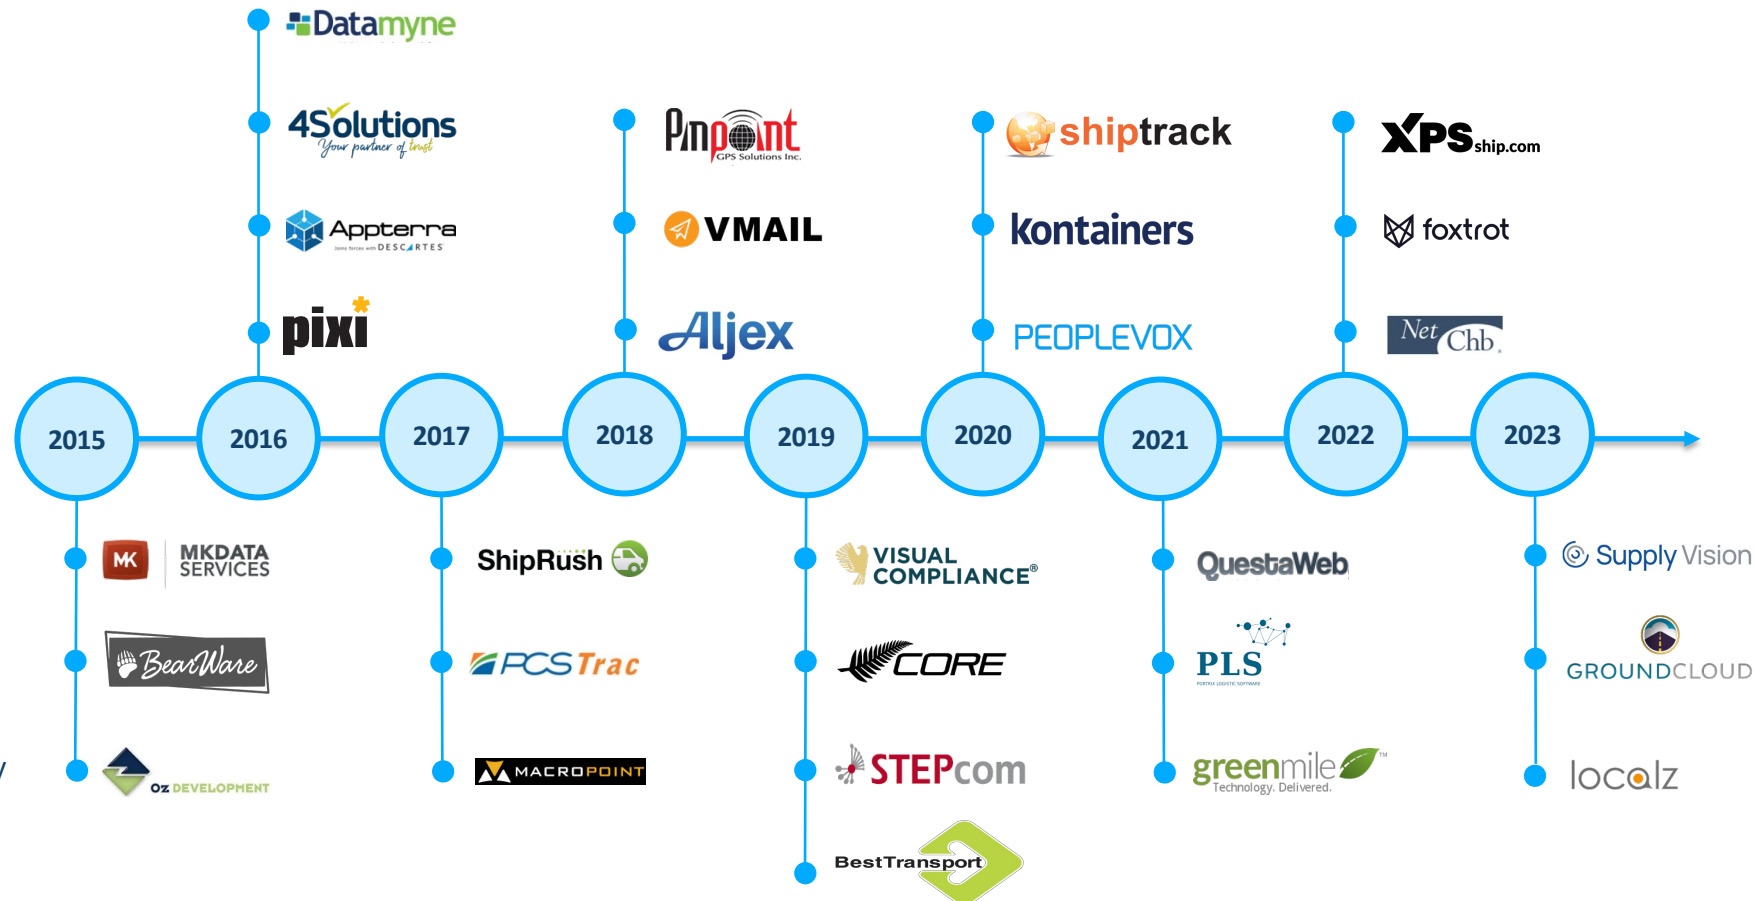

Market Drivers and Opportunities

Cloud Enables Automation	Global Logistics Network offers operational excellence, increased digitization of freight and higher precision through cloud integration and automation
Global Trade Complexity	Heightened regulatory compliance requirements and shifting global trade patterns create favorable tailwinds
eCommerce and Logistics	Descartes solutions help retailers and logistics service providers respond to the threat of Amazon, Google, eBay with real-time delivery route optimization and execution solutions
Real-time Visibility	Real-time tracking and optimization made possible by ubiquitous mobile networks, internet-of-things and cloud-scale computing
Content and Data	Customs Info, MK Data, Datamyne and Visual Compliance acquisitions illustrative of the opportunity to leverage logistics and trade data content on the Global Logistics Network
Fragmented Industry	Logistics and supply chain software markets remain highly fragmented, presenting a large consolidation opportunity

M&A is a Core Competency for Descartes

Descartes' acquisition strategy is a key enabler of its 'Total Growth' model

- Has completed 29 acquisitions since 2015 for a total consideration of ~US \$1.1 billion
- Disciplined approach that is focused on complementary technologies, industry consolidation and close adjacencies across logistics
- Core competency in sourcing, acquiring and integrating high quality assets

Recent Acquisition Success

Acquired GroundCloud (February 2023) for ~\$138mm + up to ~\$80mm earn-out

- GroundCloud is a leader in final-mile logistics automation, combining operations, safety and compliance in an integrated platform
- The GroundCloud platform also incorporates video telematics to provide driving event detection and verification, combined with reactive coaching solutions designed to improve safety
- Presents a tremendous opportunity to leverage GroundCloud's safety content and compliance solutions across a wider set of industry verticals in Descartes' routing and mobile customer base

Acquired XPS (June 2022) for ~\$65mm + up to ~\$75mm earn-out

- XPS provides its cloud-based multi-carrier parcel shipping solutions directly to small-, medium- and large-sized ecommerce shippers
- The XPS platform helps customers connect to ecommerce marketplaces and manage the lifecycle of domestic and international ecommerce shipments
- Adds scale to the GLN with additional ecommerce transactions
- Complements Descartes' recent significant investments in the ecommerce fulfilment and shipping space

Acquired Supply Vision (January 2023), Portrix (May 2021) and Kontainers (June 2020) - ~\$43m + up to ~\$9m earn-out

- Supply Vision, Portrix and Kontainers provide key functionality for logistics services providers (LSPs) to digitize their operations
- Kontainers' client-facing platforms facilitates a fully digital customer experience including quoting, booking, tracking and analytics
- Portrix's rate management solutions feed client-facing platforms (Kontainers) – enabling accurate shipment routing and pricing
- Combined with Descartes' Global Logistics Network and back-office solutions (including Supply Vision), creates a truly differentiated end-to-end product for LSPs looking to digitize their operations with a pre-integrated solution

	Net Income			
	Net Income as a % of Revenues			
	Adj. EBITDA	\$44.5		
	Adj. EBITDA % of Revenues	36.8%		

- Baseline revenues = visible, contracted and recurring revenues at the beginning of each quarter¹. Baseline revenues is not a revenues projection as it excludes sales concluded in the period
- Baseline Adjusted EBITDA² = Baseline revenue less operating expenses (excluding investment income, interest expense, income tax expense, depreciation, amortization, stock-based compensation, restructuring expenses and acquisition related expenses)

[1] For a detailed description of baseline calibration, please see Management's Discussion & Analysis (MD&A) dated March 1, 2023. Baseline calibration is typically calculated on the first day of the quarter unless adjusted to reflect the impact of any acquisitions completed after the first day of the quarter, but before the date of our corresponding MD&A in which that baseline calibration is disclosed. Baseline calibration is considered a supplementary financial measure used by management as it does not have a directly comparable financial measure disclosed in our financial statements.

[2] See Reconciliation of Non-GAAP Financial Measures on slides 21 and 22 for our approach to reconciliation of adjusted EBITDA.

Proven Record of Financial Success

Reconciliation of Non-GAAP Financial Measures - Adjusted EBITDA and Adjusted EBITDA as a percentage of revenues – Q1-24

We prepare and release quarterly unaudited and annual audited financial statements prepared in accordance with GAAP. We also disclose and discuss certain non-GAAP financial information, used to evaluate our performance, in this and other earnings releases and investor conference calls as a complement to results provided in accordance with GAAP. We believe that current shareholders and potential investors in our company use non-GAAP financial measures, such as Adjusted EBITDA and Adjusted EBITDA as a percentage of revenues, in making investment decisions about our company and measuring our operational results.

The term “Adjusted EBITDA” refers to a financial measure that we define as earnings before certain charges that management considers to be non-operating expenses and which consist of interest, taxes, depreciation, amortization, stock-based compensation (for which we include related fees and taxes) and other charges (for which we include restructuring charges and acquisition-related expenses). Adjusted EBITDA as a percentage of revenues divides Adjusted EBITDA for a period by the revenues for the corresponding period and expresses the quotient as a percentage.

Management considers these non-operating expenses to be outside the scope of Descartes’ ongoing operations and the related expenses are not used by management to measure operations. Accordingly, these expenses are excluded from Adjusted EBITDA, which we reference to both measure our operations and as a basis of comparison of our operations from period-to-period. Management believes that investors and financial analysts measure our business on the same basis, and we are providing the Adjusted EBITDA financial metric to assist in this evaluation and to provide a higher level of transparency into how we measure our own business. However, Adjusted EBITDA and Adjusted EBITDA as a percentage of revenues are non-GAAP financial measures and may not be comparable to similarly titled measures reported by other companies. Adjusted EBITDA and Adjusted EBITDA as a percentage of revenues should not be construed as a substitute for net income determined in accordance with GAAP or other non-GAAP measures that may be used by other companies, such as EBITDA. The use of Adjusted EBITDA and Adjusted EBITDA as a percentage of revenues does have limitations. In particular, we have completed six acquisitions since the beginning of fiscal 2023 and may complete additional acquisitions in the future that will result in acquisition-related expenses and restructuring charges. As these acquisition-related expenses and restructuring charges may continue as we pursue our consolidation strategy, some investors may consider these charges and expenses as a recurring part of operations rather than expenses that are not part of operations.

The table below reconciles Adjusted EBITDA and Adjusted EBITDA as a percentage of revenues to net income reported in our unaudited Consolidated Statements of Operations for Q1FY24, Q4FY23, Q3FY23, Q2FY23, and Q1FY23, which we believe is the most directly comparable GAAP measure.

(US dollars in millions)	Q1FY24	Q4FY23	Q3FY23	Q2FY23	Q1FY23
Net income , as reported on Consolidated Statements of Operations	29.4	29.8	26.5	22.9	23.1
Adjustments to reconcile to Adjusted EBITDA:					
Interest expense	0.3	0.3	0.3	0.3	0.3
Investment income	(1.6)	(2.8)	(1.1)	(0.5)	(0.2)
Income tax expense	8.4	6.3	9.0	8.8	7.4
Depreciation expense	1.3	1.4	1.3	1.3	1.2
Amortization of intangible assets	14.7	14.3	14.7	16.1	15.1
Stock-based compensation and related taxes	3.3	3.6	3.6	3.8	2.9
Other charges	1.9	2.5	0.2	1.3	1.4
Adjusted EBITDA	57.7	55.4	54.5	54.0	51.2
Revenues	136.6	125.1	121.5	123.0	116.4
Net income as % of revenues	22%	24%	22%	19%	20%
Adjusted EBITDA as % of revenues	42%	44%	45%	44%	44%

For more information on the reconciliation of Non-GAAP financial measures in the current period, please refer to our press release dated May 31, 2023: <https://www.descartes.com/who-we-are/news-events/financial-news>. For more information on the reconciliation of Non-GAAP financial measures for previous periods please refer to: <https://www.descartes.com/who-we-are/investor-relations/financial-information>

Reconciliation of Non-GAAP Financial Measures - Adjusted EBITDA and Adjusted EBITDA as a percentage of revenues – FY23

We prepare and release quarterly unaudited and annual audited financial statements prepared in accordance with GAAP. We also disclose and discuss certain non-GAAP financial information, used to evaluate our performance, in this and other earnings releases and investor conference calls as a complement to results provided in accordance with GAAP. We believe that current shareholders and potential investors in our company use non-GAAP financial measures, such as Adjusted EBITDA and Adjusted EBITDA as a percentage of revenues, in making investment decisions about our company and measuring our operational results.

The term “Adjusted EBITDA” refers to a financial measure that we define as earnings before certain charges that management considers to be non-operating expenses and which consist of interest, taxes, depreciation, amortization, stock-based compensation (for which we include related fees and taxes) and other charges (for which we include restructuring charges and acquisition-related expenses). Adjusted EBITDA as a percentage of revenues divides Adjusted EBITDA for a period by the revenues for the corresponding period and expresses the quotient as a percentage.

Management considers these non-operating expenses to be outside the scope of Descartes’ ongoing operations and the related expenses are not used by management to measure operations. Accordingly, these expenses are excluded from Adjusted EBITDA, which we reference to both measure our operations and as a basis of comparison of our operations from period-to-period. Management believes that investors and financial analysts measure our business on the same basis, and we are providing the Adjusted EBITDA financial metric to assist in this evaluation and to provide a higher level of transparency into how we measure our own business. However, Adjusted EBITDA and Adjusted EBITDA as a percentage of revenues are non-GAAP financial measures and may not be comparable to similarly titled measures reported by other companies. Adjusted EBITDA and Adjusted EBITDA as a percentage of revenues should not be construed as a substitute for net income determined in accordance with GAAP or other non-GAAP measures that may be used by other companies, such as EBITDA. The use of Adjusted EBITDA and Adjusted EBITDA as a percentage of revenues does have limitations. In particular, we have completed six acquisitions since the beginning of fiscal 2023 and may complete additional acquisitions in the future that will result in acquisition-related expenses and restructuring charges. As these acquisition-related expenses and restructuring charges may continue as we pursue our consolidation strategy, some investors may consider these charges and expenses as a recurring part of operations rather than expenses that are not part of operations.

The table below reconciles Adjusted EBITDA and Adjusted EBITDA as a percentage of revenues to net income reported in our audited Consolidated Statements of Operations for FY23 and FY22, which we believe is the most directly comparable GAAP measure.

(US dollars in millions)	FY23	FY22
Net income , as reported on Consolidated Statements of Operations	102.2	86.3
Adjustments to reconcile to Adjusted EBITDA:		
Interest expense	1.2	1.1
Investment income	(4.5)	(0.3)
Income tax expense	31.5	16.3
Depreciation expense	5.2	5.1
Amortization of intangible assets	60.2	59.1
Stock-based compensation and related taxes	13.9	11.6
Other charges	5.5	6.4
Adjusted EBITDA	215.2	185.7
Revenues	486.0	424.7
Net income as % of revenues	21%	20%
Adjusted EBITDA as % of revenues	44%	44%

For more information on the reconciliation of Non-GAAP financial measures for FY23, please refer to our press release dated March 1, 2023: <https://www.descartes.com/who-we-are/news-events/financial-news>. For more information on the reconciliation of Non-GAAP financial measures for previous periods please refer to: <https://www.descartes.com/who-we-are/investor-relations/financial-information>
