

<b>SATO AIR</b>	
Type	'N337' (ex. 'MA')
Reference	Document Type (n1): 1 = Air + Flight Date (n6 – YYMMDD) + Flight Number (an..8) + '*' + AWB Number (an..35) E.g. 1241217XX3716*99952939717
Goods Item Number	item number within AWB (air)
Package type	Same as the package type of the original declaration
Number of packages	The number of packages being written off.
Quantity	Gross weight in kilograms
Unit	'KGM'
<b>SATO LYST</b>	
Type	'N337' (ex. 'LY')
Reference	Document Type (n1): 2 = LYST + LYST Warehouse Code (a3) + LYST sequence nbr (n5) + HAWB Number (an..15)
Goods Item Number	item number within LYST (air)
Package type	Same as the package type of the original declaration
Number of packages	The number of packages being written off.
Quantity	Gross weight in kilograms
Unit	'KGM'
<b>SATO SEAFREIGHT</b>	
Type	'N337' (ex. '126E')
Reference	Document Type (n1): 3 = Maritime + Stay reference (N6) + IMO Number (an8) + '*' + Agent Code (an..6) + '*' + Manifest Article Nbr (n4) + '*'

	+ Manifest Article Goods Item Nbr (n4) + '*' + B/L Number (an..35) E.g. 3304094L9410389*SEAGHA*0001*0036*BL1
Goods Item Number	item number within B/L (maritime)
Package type	Same as the package type of the original declaration
Number of packages	The number of packages being written off.
Quantity	Gross weight in kilograms
Unit	'KGM'

NCTS P4/P5 MRN	
Type	'N820' or 'N821'
Reference	NCTS P4/P5 MRN
Goods Item Number	declarationGoodsItemNumber of the NCTS 5 document
Package type	Same as the package type of the original declaration
Number of packages	The number of packages being written off. (bulk = Empty)
Quantity	Net weight in kilograms
Unit	'KGM'

PLDA IMAJ MRN	
Type	'NMRN'
Reference	'G'+MRN nbr
Goods Item Number	Goods Item Number of the PLDA document
Package type	Same as the package type of the original declaration
Number of packages	The number of packages being written off.
Quantity	Gross weight in kilograms
Unit	'KGM'

PLDA Writeoff from NCTS P5 MRN:

Type of goods	Section	Data item	Comment
Packaged goods (everything but CL181 and CL182) Bulk goods (package type in CL181) Breakbulk (package type in CL182)	Previous document	Document Type	X (temporary storage)
		Type	IM (this is a temporary workaround for PLDA)
		Reference	MRN of the NCTS 5 document, with the first character (2) replaced by 'T'
		Document date	Mandatory for PLDA declarations. If you do not have the correct information, use the declaration date.

		Goods Item Number	declarationGoodsItemNumber of the NCTS 5 document. This sequence number is unique each article in the master consignment of the transit declaration, no matter which house consignment it's a part of.
	Directly from the declaration	Package type	Must be the same as the package type of the original declaration
		Number of packages*	The number of packages being written off.
		Mass**	This refers to the net mass.

\*For Bulk, Number of packages = 0

\*\* Will be used for writeoff in case of bulk & breakbulk.
