

DESCARTES™

Descartes QuestaWeb™

Take control of your Foreign Trade Zone (FTZ) operations—reduce duty costs, automate compliance, and streamline trade workflows.

Descartes QuestaWeb software empowers importers, exporters, FTZ operators, and trade compliance professionals to maximize the financial, operational, and compliance benefits of operating within a Foreign Trade Zone. Built on a cloud-based SaaS platform, Descartes QuestaWeb simplifies duty management, automates regulatory reporting, and integrates seamlessly with your logistics and Enterprise Resource Planning (ERP) ecosystem.

About the Product

Descartes QuestaWeb is a cloud-based FTZ solution that helps businesses reduce duty costs, automate compliance, and optimize operations. It centralizes inventory control, customs filings, and reporting to streamline trade workflows and maximize financial benefits.

KEY ADVANTAGES

- Defer duties to improve cash flow.
- Reduce customs fees and merchandise processing fees.
- Lower insurance and property tax costs.
- Eliminate duties on production exports, scrap, and waste.
- Strengthen compliance and audit readiness.
- Automate inventory and filing workflows.
- Scale with cloud-based integration.

Designed for trade professionals—FTZ software that simplifies compliance, reduces costs, and boosts efficiency.

FEATURES & BENEFITS

Defer Duties to Improve Cash Flow

Pay duties only when goods enter U.S. commerce—boost liquidity and reduce upfront costs.

Reduce Customs Fees & MPF

Minimize Merchandise Processing Fees through weekly entry filing and avoid per-shipment charges.

Eliminate Duties on Exports, Scrap & Waste

Avoid duties on re-exported goods, production losses, and non-conforming items.

Lower Insurance & Property Tax Costs

Benefit from reduced insurable values and FTZ tax reclassification in applicable states.

Strengthen Compliance & Audit Readiness

Automate recordkeeping, stay current with tariff changes, and ensure full traceability for U.S. Customs and Border Protection (CBP) and other agencies.

Automate Inventory & Filing Workflows

Enable seamless control over FTZ inventory, reconciliations, and integrated CBP filings (e214, in-bond, 3461, 7501, etc.).

Scale with Cloud-Based Integration

Leverage a centralized, SaaS solution that connects with ERP, Warehouse Management Systems (WMS), and broker platforms—no software install needed.

Gain Real-Time Visibility & Insights

Use dashboards and forecasting tools to track savings, monitor compliance, and optimize trade strategy.
